THURSDAY, SEPTEMBER 23, 1915

Our Edmonton Letter

Edmonton, Sept. 21.—The political emancipation of the women of Al-
berta is a subject that has been dis-
cussed in all that the expression con-
veys insofar as the election of mem-
bers of the legislature is concerned,
is the latest announcement of the
Premier. The whole record of
Alberta's progressive premier since
his assuming office a little over four
years ago, places his government in
the vanguard among governments
within the British empire in the
matter of advanced legislation.
No other government in Canada
has even approximated that of Al-
berta in keeping in close touch with
the people and in earnestly inter-
preting the aspirations of a progressive
democracy. At the coming session
of the legislature Mr. Sifton will in-
troduce a bill which will place wom-
en on an exact equality with men
insofar as voting is concerned. Every
woman who is twenty-one years of
age, a British subject, a resident of
the province for one year and of
the riding in which she proposes to
vote for three months, will have the
right to a ballot.

Without the blare of trumpets or
without the seeming of some dramatic
situation, in which to enshrine his
new policy Mr. Sifton, true to his
record for business-like administration,
quietly announces that the time has
come to give the women the fran-
chise, and announces the fact in the
unassuming manner that has charac-
terized his conducting office. He has introduced and carried
through some of the most ad-
vanced of radical legislation, and
at no time has he sought the van-
tage point which he is entitled to
with public acclaim. Mr. Sifton be-
lieves that womanhood suffrage is
the logical sequence of previous leg-
islation in the interest of the women
of Alberta and he proposes to em-
body the belief in the form of leg-
islative enactment. The women of
Alberta have Mr. Sifton and the Li-
beral party to thank for much leg-
islation designed to raise their sta-
tus in society. Among the acts for
the special benefit of women passed
in Mr. Sifton's five years of office
are: "the married women's relief act,"
the "infant's act," the "married wom-
en's protection act," and the "law
of a similar character, which with-
out the franchise placed the Al-
berta woman on a high plane com-
pared with her sisters in other provinces.

The granting of the franchise will
open the portals wide to active
participation in politics, and no one
in the province believes more sin-
cerely than the premier that such
participation will tend to the moral
uplift of the people and the most ad-
vanced humanitarian laws. Besides
these laws favoring women Mr. Sif-
ton has given the province direct
legislation the result of which has
recently evidenced in the popular
vote prohibition and has passed
several advanced laws at the request
of the United Farmers of Alberta.

While riding out of town on Friday
last on a load of lumber, a fire
occurred about ten miles south of
town in which one man lost his life
and two others received injuries—
one a slight injury to the shoulder and
the other a badly sprained ankle.
The unfortunate man who lost his
life had just arrived at the place
to work and practically nothing is
known of him. By a card on his per-
son he is supposed to be Harry
Gray, but nothing more is known
of him or his people. The Mounted
Police have been several days endeavor-
ing to get some clue as to where
he came from and to locate his re-
latives, but without success—Sledge
and Sentinel.

PRESERVED FRUITS FOR

RED CROSS SOCIETY

Now that the preserving season is
in full swing patriotic housewives
who are doing up fruit for the Red
Cross should take special pains to
ensure that the preserves will stand
transit and resist fermentation. A
good deal of fruit has been received
at the Red Cross headquarters done
up, or at least supposed to be done
up, in small baking powder tins,
canned fruit, and so on, and it is
worthless to say such preser-
ves are as perishable as fresh
fruit. The cover comes off the first
opportunity and the sick soldier, for
all the good housewife's efforts will
have nothing but an unsavory long-
ing. In this matter no amount of
patriotic intentions will fill the bill
so well as a quart sizer of a "lever"
tin provided with a top that will
fit down snugly and securely.

Canning instructions have been
published calling for unswerving pre-
serves as like fresh fruit as possible
and an undue time with which the
soldiers are satisfied. Some ladies
have taken these instructions too
literally and have sent in fruit ab-
solutely uncooked. Preserved fruit
should contain a certain amount of
sugar syrup. They should be boiled
at a high temperature sufficient to
destroy the yeast germs which will
cause fermentation. The jars should
be sealed so as to be air-tight.

They should be packed for transit
in stout barrels and boxes with the
individual jars snugly cradled in ex-
terior. Only careful packing will pre-
vent breakage.

Ladies preparing fruit should pay
special attention to this matter. The
making of the preserves are only a
small part of the work. The main
point is that they should reach the
sick soldier unbroken in the hospital
unbroken and unfermented.

Charlottetown, P.E.I., Sept. 17.
More definite news received during
today does not change the general
result of yesterday's provincial elec-
tion. The Conservatives were re-
turned number 17, while the Liberals
were elected 13, which is a gain for
the opposition from the last house
of eleven seats.

Provincial News

Postmaster Brown, a Hardisty
picked one hundred and fifty six
quarts of strawberries from one
twenty-two of an acre, in his garden.

The Executive of the Union of Al-
berta Municipalities has decided on
October 20 and 21 to hold the first
annual convention of the Union for
the year 1915 at Bassano.

The United Farmers of Alberta has
practically concluded arrangements,
with the help of the government, to
ship frozen meat from Canada to
Great Britain, a material concession
for the farmers of the province.

Inspector Tubaudet of Statler,
as provincial trustee officer, has in-
stituted two prosecutions this year
of parents not sending their children
to school regularly. In one case a
fine of \$10 was well deserved, as the
parent has three children, aged 13,
11 and 10, all in Grade 1.

And still Albia leads this section of
Alberta from an agricultural stand-
point. Two crops of alfalfa were
grown here this season as well as a
single crop corn. Now Mr. Dittus one
of our enterprising farmers, reports
that from 13 acres of wheat he threshed
681 bushels, or an average of
53 1/2 bushels per acre—Pec Press.

Farmers who suffer loss from by-
tine seed for sale will be interest-
ing poor seed from those who adver-
tise by the courts. Judgment was handed
down in a case tried at Olds last
week—Witman vs. Richter—by Mr.
Justice Walter, in favor of complain-
ant, who had suffered loss owing to
the poor seed bought from the de-
fendant, Richter, who had advertised
seed grain for sale. The amount of
damages awarded was \$325.

The fall sittings of the supreme
court opened at the court house yester-
day morning, with Mr. Justice
Ives presiding. The first business of
the court was the calling of the
Alberta bar of two members. More
than ordinary interest was attached
to this ceremony by reason of the
fact that for the first time in the
history of Alberta, a woman was
sworn in as a member. The lady to
receive this distinction was Miss Lil-
lian Ruby Clements of Vegreville.

Friday, afternoon, V. E. Clark, a
young man residing in the Ferrybank
district, was charged before Justice
Turner with stealing a cow, the prop-
erty of A. Maki, a farmer living in
the same neighborhood. The theft
was alleged to have taken place on
June 22, and two days later caught
brought the animal to town. A. Maki
evidence was laid, and the witness
making no defence, was remanded for
trial at the first sitting of the high
court in Wetaskiwin—Herald.

Calgary will soon bid farewell to
another batch of twelve hundred or
so boys in khaki from the "Surrey
camps." Orders have been received, it
is rumored, for each battalion to fur-
nish another batch of recruits to be
sent before. While this conflict is
in measure with the intimation
sent out from Ottawa that the bat-
talions in the future would go as a unit
the men of the expected reinforce-
ments are polishing up their buttons
in joyful anticipation of getting near
the scene of action.

While riding out of town on Friday
last on a load of lumber, a fire
occurred about ten miles south of
town in which one man lost his life
and two others received injuries—
one a slight injury to the shoulder and
the other a badly sprained ankle.
The unfortunate man who lost his
life had just arrived at the place
to work and practically nothing is
known of him. By a card on his per-
son he is supposed to be Harry
Gray, but nothing more is known
of him or his people. The Mounted
Police have been several days endeavor-
ing to get some clue as to where
he came from and to locate his re-
latives, but without success—Sledge
and Sentinel.

Calgary, Sept. 20.—City Control-
ler Wood this afternoon presented a
measure report up to a special re-
franchisement committee that met at
the afternoon sit up and take notice. He
suggested the elimination of the
three city commissioners drawing
salaries \$2,000 per year, the mayor to
be retained as a business manager at
a salary of \$200 per month; the practical
abolition of all fire department
substations, substituting vol-
unteer fire brigades; the elimination
of the police force, the mounted po-
lice, the home guard and militia to
aid in preserving peace and order,
and the standardization of salaries
of heads of departments at salaries
of \$15 a month.

Saturday forenoon a sad fatality
occurred when James E. Aylin was
killed by being run over by his lim-
der. He was in the act of adjusting
his bicycle, and was apparently on
his knees when the horses moved for-
ward, the bull wheel passing over his
back. Medical aid was immediately
summoned, but it was seen from the
first that the injuries would prove
fatal, and he only lived a couple of
hours. Mr. Aylin, who was aged
sixty-nine years, one month and five
days, was born in Aylmer, Quebec,
was a worthy citizen, widely known
and highly esteemed. Coming to the
west with his family by trail from
Winnipeg in 1851, he resided in the
Fonoxia district, and had lived on
the farm, north of town, ever since,
being the first white settler to lo-
cate here, his experiences were of a
mixed order, and it was a pleasure
to engage him in conversation and
hear the tales of bygone days relat-
ed in his own pleasing manner. He
had lived through the trying times
of pioneering days and was proud to
see his faith in the district vindic-
ated and the new comers bringing so
prosperous. Besides Mr. Aylin, de-
ceased, leaving a family of four sons
and three daughters, a brother, E. C.
Aylin, of Poncha, and three sis-
ters, Mrs. S. B. Lucas of Hobbema,
Mrs. McConnell and Mrs. Reid of Ot-
tawa—Herald.

HOW LONG WILL
THE WAR LAST?The War Against Health Is Quickly
Ended By "Fruit-A-Lives"

East Ship Harbour, N.S.
"It is with great pleasure that I
write to tell you of the wonderful
benefit I have received from taking
"Fruit-A-Lives." For years I was a dreadful
sufferer from Constipation and Head-
aches, and I was miserable in every way.
Nothing in the way of medicines
seemed to help me. Then I finally
tried "Fruit-A-Lives" and the effect was
apparent. After taking one box, I feel
like a new person and I am deeply
thankful to have relief from those
sickening Headaches."

Mrs. MATHA DEVOLFE.
"FRUIT-A-LIVES," the medicine
made from fruit juices, has relieved
millions of sufferers from Headaches, Con-
stipation, Stomach, Liver, Kidney and
Skin Troubles than any other medicine.
50c a box, 6 for \$2.50, trial size, 25c.
At all dealers or send on receipt of price
by Fruit-A-Lives Limited, Ottawa.

The customs officers of the province
of Alberta, will unite and donate
enough money to buy a machine gun
for the overseas forces.

Friday, October 8 has been defini-
tely fixed as the date for the formal
opening of the new Normal school.
Invitations will be issued at once
in the names of the minister of edu-
cation and the principal and staff of
the Normal school.

When the big crop is safely housed
and the \$100,000,000 distributed al-
most among the people of the province,
there will be little room for gloom or
pessimism this winter. Conditions
may not be as good all around as
they should be if the war was finish-
ed, but there will be money in the
country, and likewise an appreciable
quantity of prosperity.

The current issue of the Farm and
Ranch Review, Calgary, is of more
than usual interest on account, par-
ticularly of two, or three timely arti-
cles. The editor has an exhaustive
review of the grain marketing condi-
tions and prospects which throws a
lot of light on a question too little
understood. Another article deals
with the question of blending feeds
to show the best results will be ob-
tained, and then there is a very in-
teresting explanation of a plan to
exploit horse breeders by a few in-
dividuals who tried to get between
the breeders and the British racing
commission.

Now that Premier Borden has re-
turned it is not improbable that an
election will be brought on. By law
and by the constitution a general
election must be held within two
months of the 1st of December, 1916.
The present parliament comes to an end by the
process of time on October 7, 1916, and
an election may be held within two
months thereafter or later. Though
great sections of the Conservative
party are found in the great mass
of Canadians who want no general
election when this great war is on,
yet it will be difficult for the pre-
mier to hold off longer the demand
of "the machine" for an election, de-
spite the two disappointments which
have been meted out to it so far.

Another session could well be held
this winter, but the commercial and
financial conditions of the country
are so improved, and the loyalty and
make the duty of the government in
meeting parliament a pleasant one.
Premier Borden's visit to Britain
and honors and the loyalty which
may be used to the limit in order to
induce the people to vote the present
government a new lease of power,
despite the fact that the premier has
another year's lease of life, and that
it will divide the people and distract
attention from the greatest work
Canadian statesmen and the Cana-
dian people have had to do since Con-
federation; the securing of an ade-
quate representation of Canadian
ambassadors upon the fields of France
and Flanders, where autonomy and
democracy are waging a life and
death conflict.

Well Drilling

With my heavy outfit I can
drill from 50 to 600 feet, if it is
necessary, two and three inch
holes. Eight years experience.
Satisfaction guaranteed. Will
drill anywhere in the province.
Good horses and young cat-
tles taken as cash.
Call or write for prices and
terms.

BLUE RIBBON COFFEE AND BAKING POWDER

Ask for Blue Ribbon products and see that your dealer gives them. All Blue Ribbon goods are guaranteed to satisfy. If otherwise you may return them. Blue Ribbon Coffees and Baking Powder are the best on the market or they couldn't be sold with so strong a guarantee.

THE SPECULATING FARMER

The farmer of western Canada, who has long been upbraided for his disregard of the principles of scientific agriculture, the gospel of mixed farming, as the safeguard against soil exhaustion, has been constantly dinned into his ears but, as a rule, the advice has been constantly ignored, and the farmer has adhered religiously to his system of soil mining. As a matter of fact, he has seldom admitted that his farming methods are unscientific. What, then, is the explanation of a general and firm adherence to mistaken courses? The typical western farmer is neither lazy, unintelligent nor particularly short-sighted. Certainly, it is not that he is ignorant of the principles and practices of scientific agriculture for the Canadian West has recruited its pioneers from the best farming communities of the British Isles, Ontario, the Maritime provinces, Iowa, Illinois, Wisconsin, Kansas and Nebraska. His failure to follow proper methods of cultivation is due to notions of these causes, except in a minor degree.

The main difficulty today consists in the fact that our western farmer, like his counterpart of a few decades ago in the western states, plays a dual role. He is a farmer and a land speculator, and it is often doubtful which characteristic predominates. Many homesteaders, of course are farmers, purely and simply, but for thousands of others speculation is practically the sole motive. The representative westerner, however, combines the two occupations and is needless to say, as a speculator he is an indifferent farmer. The combination is not favorable to good farming and to the conservation of soil fertility. The average farmer, in anticipation of a rapid rise in land values, has burdened himself with as large an acreage as he could acquire. Having assumed heavy obligations, usually with little capital, he has faced high interest rates, a scarcity of labor, and high cost of implements. He has been compelled, in order to hold his land for the promised advance in value, to resort to the system of cultivation that produces the maximum gross revenue with the minimum of outlay. The bona fide farmer has learned with a view to insuring the permanent productivity of his lands; the speculator, on the other hand, has not farmed at all, the former speculator has operated his agricultural plant at capacity speed with a view to selling it before the output diminishes appreciably. He has not been content to receive a normal profit from his farm. He has robbed the business as a going concern by encroaching on capital. Soil fertility is the capital asset which a wise agriculturist maintains unimpaired.

"ON THE FIELD OF HONOR"

The publishers of the Family Herald and Weekly Star, Montreal, are making a strong bid for that picture, beautiful, full of pathos, called "On the Field of Honor." It is assumed the publishers of the Family Herald have in mind using it as a presentation plate. If that is so, there is a great treasure in store for readers of the Family Herald and Weekly Star this autumn. In past years the Family Herald has been noted not only for the wonderful excellence of their journal but for many beautiful pictures it has presented to its readers. The Family Herald has a name for succeeding in anything it undertakes, and we feel sure that if it is humanly possible to secure "On the Field of Honor," it will succeed in getting it. This picture is attracting widespread attention in Europe.

ORIGIN OF BLOTTING PAPER
Blotting paper was discovered purely by accident. Some ordinary paper was being made one day in a mill at Berkshire, when a careless workman forgot to put in the sizing material. It may be imagined what angry scenes would take place in the mill, as the whole of the paper was regarded as quite useless. The proprietor of the mill desired to write a note shortly afterwards, and he took a piece of the waste paper, as he thought it was good enough for the purpose. To his intense annoyance the ink spread all over the paper. All of a sudden three flashes of light over his head flashed over his mind the thought that this paper would do instead of sand for drying ink, and he at once advertised his waste paper as "blotting paper." There was such a big demand that the mill ceased to make ordinary paper, and was soon occupied in making blotting only, the use of which spread to all countries.

FUEL SUPPLY OF PRAIRIES

One of the most important problems in Canada at the present time is the provision of an adequate supply of cheap fuel for the population of the prairie provinces. Very large areas of these provinces are underlain by beds of subbituminous coal and lignite, which are estimated to contain 100,000,000,000 tons of these fuels. As yet, however, practically all of the fuel used in that portion of the plains east of Brandon is imported from the United States, while that used in the country west of Brandon is brought chiefly from the coal fields of the Rocky Mountains. This entails a long and expensive haul which results in high priced fuel and any temporary interruption of the supply gives rise to a coal famine.

The reason why the mineral fuels of the provinces have not been utilized is that they are expensive to mine owing to the absence of supplies of mine timber on the treeless prairies; they are also of a lower grade than the coal from the Rocky Mountains, containing a larger percentage of moisture. They thus have a lower heating value than the fuels from the mountains, and furthermore,

when they are exposed to the atmosphere after being mined, they dry out to a certain extent and so become so crumbly to pieces, or even fall to powder, so that they cannot be readily handled and will not transport. Such being the case, if these fuels are to be made available for household use they must be briquetted, or, if they are to be used for manufacturing purposes, they must either be briquetted or used in gas producers.

A series of trials of Canadian fuels recently carried out by Dr. J. B. Porter and Prof. Dury of the McGill University for the Mines branch of the department of mines at Ottawa, show that these fuels of the plains are excellently adapted for use in the gas producer and are thus well suited for the production of power. The question as to whether they can be briquetted, when necessary, at a sufficiently low cost to make the enterprise commercially profitable, has not yet been established. Fuels of this general type are briquetted in Germany on an enormous scale, and the United States Bureau of Mines is now investigating the possibility of briquetting the lignites of North Dakota. Lignite, as of course, is briquetted if a suitable binding material is employed. This, however, entails additional expense, but many of the German lignites and some of those occurring in North Dakota can be briquetted without the addition of any binding material. It is thus very important that an investigation should at once be made into the question as to whether there are not among the great deposits of fuel underlying the Canadian plains and outcropping on their surface, some at least which can be worked for the production of cheap briquetted fuel which will stand transportation, and thus supply a needed fuel for the population of the Prairie provinces.—Dr. Frank H. Adams, at 1915 annual meeting of commission of conservation.

AUTUMNAL HINTS TO HOUSEHOLDERS

The season is fast approaching when cool evenings will demand the starting of the fires in our homes. September and October have become known to firemen as the months when chimneys and flues cause the most trouble.

The following suggestions of a practical nature, if faithfully followed, will do much to prevent damage to property and loss of life. Stoves—Place a metal stove board on the wood floor under the stove, extending at least twelve inches in front of the ash pit door. Protect all walls and partitions within two feet of any stove with a metal shield leaving an air space between the wall and the shield. Leave no kindling or other wood in the oven overnight. Do not hang clothes too near the stove or stove pipes.

Pipes—See that the lengths of stovepipes are well fitted together, free from rust holes and paint seams, wired firmly and fitted perfectly into the chimney. Stovepipes passing through partitions, walls, floors, attics and roofs are dangerous at best. Where these must pass through partitions, walls or floors always use a large double thimble. You should examine the stovepipe in the attic. They may come apart or rust. Flue and spider webs are likely to gather on and around them to be set on fire when least expected.

Chimneys—Chimneys should be built from the ground up, and never rest on wood supports. The settling of the woodwork cause cracks in the chimney. Nor should the chimney walls be used to support rafters or other woodwork. Soot, brick and poor mortar are often responsible for defects in the chimney. Use a good quality of brick and cement mortar. Chimney walls should be at least eight inches thick, the flue of ample size and lined with fire clay or terra cotta. Never stuff up the flue holes with rags or paper, nor cover them with anything but a metal stock. Chimneys should be cleaned frequently.

Furnaces—Protect all woodwork above and around boilers, if within three feet, with a metal shield, also all woodwork in the pipe run. It is best to rivet the lengths of pipes together to prevent disjoining. Examine the pipes frequently for rust holes or other defects. Keep them free from dust, fluff and spider webs which are easily ignited.

Drifts—Collective gas, in boilers, furnaces, pipes and chimneys should be promptly repaired. Overheating—Beware of overheating stoves, boilers, furnaces, pipes and chimneys. Ashes—These should not be put into wooden receptacles or bins, on wood floors or against wood partitions, walls fences or buildings. Use

Could Not Bend Down On Account of Backache.

Mr. J. A. Lubnicki, Dauphin, Man., writes: "It is my pleasure to write you in regard to Doan's Kidney Pills which I have been using for some time for kidney trouble, which used to affect my back so that at times I could not bend down, nor could I walk straight. I learned about your pills from your advertisement and I bless the happy hour I thought of trying this medicine. One time a druggist persuaded me to buy Doan's Kidney Pills, saying they were just as good, in fact he guaranteed they were. I yielded to his advice, and what was the result? I had bearing down pains in my back for two days, so I took the balance of the pills aimed to the druggist, and told him to give me Doan's Kidney Pills as they would stop the pain in 12 hours at the outside. He told me he was sorry I did not use more of the pills, and instructed the time to the druggist. I told him there is no need of waiting with Doan's Pills, they go right to the spot. No substitute. Doan's Kidney Pills are 50c a box, 3 boxes for \$1.25 at all druggists, or direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. When ordering direct specify 'Doan's'

THE STAR STORE

READY-TO-WEAR DEPARTMENT 2ND FLOOR

In our Ready-To-Wear Department you will find complete range of Ladies' Fall and Winter Coats in newest styles and materials of Tweeds, Serges, and Chinchilla Cloths, sizes 34 to 46, prices \$15.00 to \$28.00; Misses 10 to 18 years, prices \$7.50 to \$15.00; Children's 4 to 10 years, prices \$4.00 to \$8.50

Sweater Coats	Flannellette Special	Blanket Cloth
Ladies and Children's Sweater Coats in all sizes from 34 to 40. Colors: tan, red, brown, navy, and brown, grey and black. Prices \$2.50 to \$5.00 each.	30 in. Flannellette in light and dark colors of plain and stripes. We only have a few pieces of this line, so buy now. Special 10 yards for \$1.00.	In plain colors of tan, light and dark red, grey, navy and mixed colors. 52 inches wide, \$1.35 yd. White in same width, \$1.60 yard.

FURS FURS FURS

Now is the time to choose your set of Furs and we have at present displayed a nice assortment of Furs in Muskrat, Beaver, Mink, Mink Marmot, and Blue Wolf. Prices \$10.00 set to \$100.00. All shown on main floor. Call and see these lines. We are pleased to show you and quote prices.

Serge Dress Goods	Kimono Specials	Hose Hose
Special all wool serge, 38 inches wide, colors of brown, navy, Copenhagen, red and black. These serges are all wool and the price is 75c per yard.	A complete line of Ladies Kimono in sizes 34 to 44 bust measure. Colors blue and mauve, red and blue, grey and tan, etc. Prices \$2.50 to \$7.00 each.	A complete line of Ladies Hose in cashmere, sizes 8 to 10, 11 to 13, 14 to 16, 17 to 19, 20 to 22, 23 to 25, 26 to 28, 29 to 31, 32 to 34, 35 to 37, 38 to 40, 41 to 43, 44 to 46, 47 to 49, 50 to 52, 53 to 55, 56 to 58, 59 to 60, 61 to 63, 64 to 66, 67 to 69, 70 to 72, 73 to 75, 76 to 78, 79 to 81, 82 to 84, 85 to 87, 88 to 90, 91 to 93, 94 to 96, 97 to 99, 100 to 102, 103 to 105, 106 to 108, 109 to 111, 112 to 114, 115 to 117, 118 to 120, 121 to 123, 124 to 126, 127 to 129, 130 to 132, 133 to 135, 136 to 138, 139 to 141, 142 to 144, 145 to 147, 148 to 150, 151 to 153, 154 to 156, 157 to 159, 160 to 162, 163 to 165, 166 to 168, 169 to 171, 172 to 174, 175 to 177, 178 to 180, 181 to 183, 184 to 186, 187 to 189, 190 to 192, 193 to 195, 196 to 198, 199 to 201, 202 to 204, 205 to 207, 208 to 210, 211 to 213, 214 to 216, 217 to 219, 220 to 222, 223 to 225, 226 to 228, 229 to 231, 232 to 234, 235 to 237, 238 to 240, 241 to 243, 244 to 246, 247 to 249, 250 to 252, 253 to 255, 256 to 258, 259 to 261, 262 to 264, 265 to 267, 268 to 270, 271 to 273, 274 to 276, 277 to 279, 280 to 282, 283 to 285, 286 to 288, 289 to 291, 292 to 294, 295 to 297, 298 to 300, 301 to 303, 304 to 306, 307 to 309, MONEY RAISING SALE

We are living in a time now when money stringency is felt worse than any time before in history by every individual. The cry for money is sounding louder and louder every day. We are no exceptions, we also need the money, **MUST HAVE IT.** We are forced by circumstances to

RAISE THREE THOUSAND DOLLARS

within the next two weeks, and in order to do so, we must cut the throat off the profit, place it under the sledge-hammer and crush it. The prices will therefore be leveled down to the rock bottom, and the profit is handed over to the customer. This certainly means money for you. Don't miss it. Come early. We need your money and you need the goods. Space will not permit to go into details but we have specially reduced prices on all lines. Below we list a few of the bargains:

C. J. CAMERON, Gen'l. Supt. of Lands, Dept. of Natural Resources, C.P.R., CALGARY, ALBERTA

Was Weak and Run Down.

COULD NOT STAND THE LEAST EXCITEMENT.

When one gets weak and run down the heart becomes affected, the nerves become unstrung and the least excitement causes a feeling of utter lassitude. What is needed is to build up the heart and strengthen the shaky nerves by the use of such a medicine as Milburn's Heart and Nerve Pills.

Mrs. J. A. Williams, Tillamook, Ore., writes: "I cannot speak too highly of Milburn's Heart and Nerve Pills. I suffered greatly with my nerves, and was so weak and run down I could not stand the least excitement of any kind. I believe your Heart and Nerve Pills to be a valuable remedy for all sufferers from nervous trouble."

Milburn's Heart and Nerve Pills are 50c per box, 4 boxes for \$1.95, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

General News

The editor of this paper will be pleased to insert extracts of letters from our boys at the front. Will friends in correspondence with them kindly take note

London, Sept. 18.—At a dinner given at Windsor Castle, last night, King George proposed the health of President Wilson. This is the first occasion on which the health of the president of the United States has been proposed at an English royal table by the sovereign.

Hoople! The newspapers have taken to adorning compulsory marriage. Get married or go to war is the way they would have it and the poor guy that can't find a maiden who will consider him will have to fight the Hun. "If he or not, let be that the question." All is fair in love and war.—Ex.

There will be few changes in the winter fashions for blouses. Socks will be worn with a hole in the heel as formerly. Collars may be worn for two weeks, more or less. A nail to hold your nether garments will be considered to go. Pockets in the married man's garments, as usual, will have no change in them.

Vancouver, Sept. 18.—Announcement is made by the Canadian Northern Railway that beginning October 11, the company will run a high speed train from Edmonton three times a week. For the first year at any rate the tracks of the Great Northern railway from New Westminster to Vancouver will be used by the Canadian Northern to enter the city.

Captain McCrea's crop apple trees are so heavily laden with fruit that the branches have to be propped up. One eight-foot branch broke off, and the Captain sat it in in the News, and we exhibit it in our window. Although a number of the apples dropped off on the way in, there are still one hundred and twelve apples on this branch. When Alberta starts to do anything, she generally does it well, and this crop apple tree is no exception to the rule. Alberta can grow crab apples all right. —Red Deer News.

The wealth of the province can no longer be measured by the bushels of grain that are grown, nor yet by the number of cattle that are on the ranges, for there is another factor which enters very largely into agricultural prosperity of the country, and that is the dairy industry. To doubt this is to fly in the face of facts and figures, for last year there was manufactured in the province of Alberta over five million pounds of butter, and this year the output of butter from the 36 old creameries will reach the seven million mark. This does not, of course, take into consideration the amount of butter that is daily marketed in the different towns and cities throughout the

province, nor does it take into consideration the value of cheese manufactured in the district, which every year amounts to a considerable sum. A fair average price for butter is 25 cents a pound, and figured in this basis the output of the year represents a large sum of money, more than most people would imagine is being made by the farmers in this one branch of the agricultural industry.

Toronto, Sept. 20.—Canadian Anglians have come to the conclusion that a book of common prayer compiled three hundred years ago in England needs some revision and additions to make it more adequate of the church under modern conditions, in a new country. This was the subject which occupied the attention of the general synod which entered on its fifth day at Trinity College today. The synod adopted the morning and evening prayer services as revised with a few minor changes.

New York, Sept. 18.—Satisfied by Vilhalmur Stefansson's announcement that he is alive and well on Banksland, in the Arctic, explorers and geographers directed attention today to the new land he has found in the far north. In Stefansson's own report the newly discovered land is located 78 degrees north latitude and 143 degrees west longitude. His actually saw about 100 miles of the coast line running in an easterly direction and apparently penetrating to a distance twenty miles inland where from a hill top the explorer saw mountains at a distance of 50 miles.

Moose Jaw, Sask., Sept. 17.—Secretary J. B. Musselman, of the grain growers' association, in an interview tonight in regard to the Saskatchewan farmers' patriotic act, rebuke, stated that a conservative estimate placed the number of acres contributed to it at not less than 5,000; which would represent approximately 100,000 bushels of wheat or five million pounds of flour. A great number of foreigners had contributed to the fund, full bushels of forms having been received when regular forms had been signed by foreigners, including Scandinavians, French, a number of Germans and Austrians, and a sprinkling of Roumanians and Serbs.

Returning to camp from northern harvest fields, via the C.P.R., on Thursday morning last, a number of Alberta soldiers aroused the ire of the C.P.R. employees by their noisy celebrations. Summoning for ejections of the ringleaders, having been found impossible through the interference of their comrades, the coach containing the offenders was sidetracked at Poncha. An impatient official desiring to see how many of the disturbers that had thus been disposed of, on investigation found to his amazement that the coach was empty, the witty lads in khaki having scented a charge and removed their carcasses to another portion of the train.

SELLING HORSES

For a number of years the United States has shipped about 20,000 horses and 5,000 mules abroad annually, says Yost's Companion. "During the first ten months of the war we sent 215,729 horses and 39,229 mules across the sea. The department of agriculture believes that after the war millions of work horses will be needed in Europe, and that the United States must supply most of them."

WHEN YOU ARE TIRED

To some women nothing is so restful as an entire change of thought. Fifteen minutes with an interesting story will take them millions of miles away from the pressing tasks and the confusion of little voices, and they will come back refreshed. Have you ever tried this? It is worth a trial. Select a book that you will so enjoy that you will lose yourself in it. Not only will the fifteen minutes rest you but it will give you pleasant thought against the time when you are darning stockings, peeling potatoes or washing dishes.

The European war has placed the United States second among the maritime nations of the world. New York, Sept. 18.—That he had faced German soldiers driven to the charge by great whips in the hands of the officers, was the statement made today by Paul C. Gelland, a French actor, late lieutenant in the 56th regiment, French infantry, who arrived in this country yesterday. "I beg you to believe that this is not hearsay," he said, speaking in French, "The French minister of war has scores of these whips captured on the battlefield. At the battle of Marais, I saw the German officers whip their men from the trenches to charge me. I saw the white on the shoulders of the prisoners and dead men."

MAY ADMIT MARQUIS

Winnipeg, Sept. 18.—The board of grain commissioners has ruled that Marquis wheat, if it conforms to the conditions provided in the Canada Grain Act, shall be graded as No. 1 hard, and the duty of the grain inspector is to grade the grain No. 1 Hard if it is No. 1 Hard. The act says that No. 1 Manitoba Hard wheat that shall be round and well cleaned, weigh not less than 60 pounds to the bushel and have at least 75 per cent Hard Red Fife wheat, shall be graded No. 1 Manitoba Hard.

ACTION OF SINGLE SPOONFUL SURPRISES MANY.

Wetsaskiwin people who bought the simple mixture of buckthorn bark, glycerine, etc., known as Adler-ka, are surprised at the INSTANT effect of a SINGLE SPOONFUL. This remedy is so complete a bowel cleanser that it is used successfully in appendicitis, Adler-ka acts on BOTH upper and lower bowel, and ONE SPOONFUL relieves almost any case of constipation, sour or gassy stomach, ONE MINUTE after you take it the fumes rumble and pass out. T. F. Hall, druggist.

The man who prays one way and punishes another generally goes the way he punishes.

To Whom It May Concern:

ANNUAL REPORT OF THE DEPARTMENT OF MUNICIPAL AFFAIRS

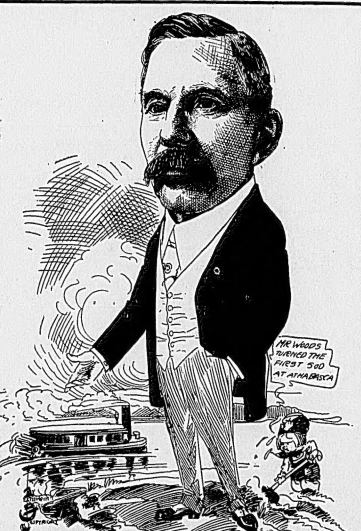

The report of the department of Municipal Affairs for the year 1914 is to hand and its contents are exceedingly interesting. The Hon. W. Garfield is the minister in charge and his report covers everything in development of municipal affairs that has taken place during the year. The year was one of development in municipal affairs throughout the province. The abnormal financial conditions brought about by the outbreak of war interfered with progress to a great extent, but on the whole the various municipalities came through the year successfully. It was the second year since rural municipal organization was arranged for, and the progress that has been made by the rural municipalities during

the year 1914 has been very marked indeed. Rural municipalities apparently appreciated the self governing powers conferred upon them by their organization, and while it is a new system and many of the electors are not only strangers to each other but strangers to the country, the results have been very satisfactory. The work of financing the school districts, dealing with questions relating to stock running at large, public health, etc., brought before them new and difficult problems, but their various councils worked out their particular problem in a very efficient manner.

The minister advises caution on the part of urban and rural municipalities against an over expenditure of money on improvements than that warranted by local conditions.

The hum of the thrasher may now be heard in nearly every part of the Wetaskiwin district.

JAMES WOODS, PIONEER
Athabasca, Alberta

DRESSING THE HIGH SCHOOL GIRL

(By Mrs. G. W. Kerby, Mount Royal College.)

The following taken from the Morning Albertan, will be read with interest by the mothers sending their daughters to the Wetaskiwin high school:

Now that everyone is more or less feeling the duty of making some personal sacrifice to the war time, and most people are feeling the reaction from a period of unusual boom conditions, would it not be a good time and a suitable one to consider some radical changes in the dress of Calgary girls of high school age. Prior to this age the average parent can control quite easily the dress of her little daughter, especially as she has not yet entered into the flirty and undisciplined stages of her existence. Just as she desires and turns her attention to these things, her supposedly stronger minded brother has an equal desire for bright colored hosiery, startling shirts of yellow, blue, or bright green stripes, crowned by a flaring tie of such colors that even the rainbow fades into insignificance beside it.

We must fully realize these stages as part of the natural development of the boy and girl if we are to cope with the situation.

As a Canadian I have the greatest admiration for the simplicity of the dress used by the educated and refined mother in England for her school day girl. Often during the past few years in Calgary, when money has been plentiful and our girls have been allowed to indulge in every fancy, in the years when ideas were unfettered, as I've noticed girls in our schools, dressed out in every form of costume, expressing their various moods—from diaphanous muslin, with low necks, jewels and silk or gauzy stockings, all of which are suitable only for the drawing room—I've been led to ask "What are we trending?" and "What is to be the future of the women of this generation?"

There is no use talking! It is not in good taste and is injurious to our girls. We have not the money now to gratify every extravagant and ill-considered whim of our boys and girls, and it is well for them that this is so.

Could we not evolve a better, safer, more healthful form of school dress—one which would indicate class distinction and would not separate our students into such distinct groups? There has been such distinction in the past. Girls have told me that they have been ostracized from school society in Calgary merely by the matter of grand dressing—girls who are just as good or better than the others. Can we not evolve, in these days a better state of affairs? Let us have a sensible idea, that of the girl earning her way to place and distinction on her manners and her student ability, not on normal girlhood, and not her capacity for dress and togethery.

Why not adopt today, the almost universal navy blue middie suit for winter and the white middie suit for summer? Why not adopt the sensible broad breasted walking skirt, and not a dancing pump? Why not discourage the wearing of necklaces, jewelry, leads and such things in school? Let us teach them that they are school girls and not young ladies in the past. Girls have told me that they have been ostracized from school society in Calgary merely by the matter of grand dressing—girls who are just as good or better than the others. Can we not evolve, in these days a better state of affairs? Let us have a sensible idea, that of the girl earning her way to place and distinction on her manners and her student ability, not on normal girlhood, and not her capacity for dress and togethery.

It is with no animosity that this is advanced, but because I have heard some sensible mothers wishing for a better code of dress, believing that a higher student standing will be attained when the mind of the girl is freed from the eternal dress problem. We would like to hear from other mothers of girls in Calgary, what they think.

WOMEN'S SUFFRAGE FOR ALBERTA AT THE NEXT LEGISLATURE

The clock has struck the woman's hour in Alberta. Hon. Arthur Sifton, premier of Alberta, has announced that at the next session of the provincial legislature a statute will be introduced, placing men and women in the province on an absolute equality so far as provincial matters are concerned. In other words, the women of Alberta will hereafter exercise the franchise in provincial elections under the same conditions as the men. The Sifton government, moreover, is taking full responsibility for the measure, which will be presented from the government benches by one of the members of the cabinet.

The next legislative session, which likely will be held in February of next year, will be one of the memorable epochs not only in the history of Alberta, but the whole of Canada for the Hon. A. L. Sifton as the first Canadian premier to establish such a radical departure from existing conditions and in the words of Henry, "make the bounds of freedom wider yet." He might have asked the women of Alberta to proceed under the provisions of the direct legislation act, in a similar way to the procedure adopted by the temperance people of the province; in connection with prohibition, and instead that the proposal be either adopted by the legislature or ratified by popular vote. Instead of doing this, however, he had voluntarily agreed to the principle of universal suffrage, and has given instructions for the preparation of a statute which will have the full force of the government behind it when it comes up for the consideration of the house.

Much of the credit in connection with the efforts of the women of the province to secure the franchise is due to Mrs. Nellie McClung, the gifted authoress and lecturer, who has written about the subject, talked about it from the public platforms, and in every way has given a valuable impetus to the movement. Mrs. Arthur Murphy, another well-known authoress, while not a mem-

Beecham's Pills

Sold everywhere. In boxes, 25 cents.

ber of the equal franchise league, has constantly contributed a great deal to the campaign.

The part played by the United Farmers of Alberta is also worthy of mention. For some time they have adopted women's suffrage as one of the principal planks in their platform, and at their late big convention in Edmonton the six hundred delegates reaffirmed their opinions in this respect by a unanimous vote. Another organization, the C. G. U., also in season and of season declared their unshakable conviction that women should have the vote.

In The Churches

The monthly Holiness meeting for September will be held in the Methodist Baptist church on Thursday evening and Friday afternoon and evening, September 23 and 24. Evening services at 8 o'clock, afternoon services at 2:30. Miss M. A. White, matron of Bethel Rescue Mission, Edmonton, will have charge of the services. All are invited.

METHODIST

Sunday, Sept. 26—11 a.m.—"Thomas Didymus" 2:30 p.m.—Sunday school. Rally Day. Special address "Our All-time Finding Others" good music. Parents come with the children. 7:30 p.m.—"The Universal Sublimation from Mr. Addison." A lesson from Namaan, the Leper.

A meeting of the ladies of the congregation will be held in the church Friday evening at 8 p.m., to consider the Harvest Home and Anniversary services to be held on Sunday, October 10, and the Thanksgiving Dinner on Monday, October 11. All ladies of the congregation invited.

SALVATION ARMY

Harvest Home Services, Sept. 25. The Harvest Thanksgiving Effort is now in full swing and services have been arranged at the local hall as follows:

Saturday, all day—Present your gifts.
Sunday, 11 a.m.—Consecration service.
3 p.m.—Sabbath school.
7:30 p.m.—Infant dedication.
Major J. H. H. of Edmonton will conduct above services.
Monday, 8 p.m.—Sale of goods.
Wednesday, 8 p.m.—Final prayer service. Good program by Ad. J. C. Habker, of Edmonton. Refrains. Admission 10 cents.
Everyone is cordially invited to attend these services. Gifts of the spirit are in raising the local Target. Gifts of cash or goods will be gratefully received. Let the Captain know where you live and he will call on you.

General News

The third annual convention of the teachers in the Stettler Inspectorate is to be held in the public school, Stettler, on Thursday and Friday, October 7 and 8.

It is promised that Canada will have a fairly large sized pension list after the war. Well, there should be no Dominion expenditure more cheerfully met by the people than this.

The privilege of the mails of Canada has been denied the "People's Post," a pro-Government publication of Indianapolis, and it is an indictable offence, punishable by heavy fine or imprisonment for anyone having the paper in his possession.

Great Britain now has 3,000,000 men under arms, on the continent and in training in England. In addition she has 8,000,000 men making munitions. This was the statement of Premier Asquith in the British house of commons on Wednesday.

The liquor traffic in the United Kingdom has been restricted to the extent that only within certain hours in the latter part of the day are the public houses allowed to sell. The Glasgow Herald shows two men in front of a bar. One asks the other what the new regulation means. It means this, is the reply, "that after Monday you'll not get your morning till late in the afternoon."

With a capacity of 2,500,000 bushels, the big Dominion government elevator in East Calgary is now completed. With three unloading tracks and three loading tracks, with track facilities for all of Calgary railways, with a modern system of construction that permits the handling of 300 or more cars of grain daily, this will benefit Calgary to a large extent as a grain centre.

Toronto, Sept. 17.—Major Gen. Sir Sam Hughes, minister of militia announced in an interview here today that the department may adopt a unexpected policy, in housing troops in training this winter. Instead of concentrating large bodies of troops now in camp, at big city training centres during the winter, the department may utilize drill halls, armories and other buildings in small cities and towns and distribute regiments all about the country in that way.

Many Troubles Arise From Wrong Action Of The Liver.

Unless the liver is working properly you may look forward to a great many troubles arising such as biliousness, constipation, heartburn, the rising and souring of food which leaves a nasty taste in the mouth, sick headache, jaundice, etc.

Mr. Howard Newcomb, Pleasant Harbor, N.S., writes: "I have had sick headache, been bilious, and have had pain after eating and was also troubled with a bad taste in my mouth every morning. I used four vials of your Milburn's Lax-Liver Pills, and they cured me. The best praise I can give is not enough for them."

Milburn's Lax-Liver Pills are 25c. per vial, 5 vials for \$1.00; at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
